

NOAA IDL/GIF End User Agreement

NOAA has been granted a free waiver by Unisys to enable the GIF features in Research Systems, Incorporated IDL product. This waiver stipulates:

"Requestor hereby requests that Unisys provide Requestor with a free waiver to permit LZW-enabling of the Software by Software Vendor (RSI) for use solely in countries where Unisys does not have an un-expired LZW patent.

In consideration of Unisys providing Requestor with the requested free waiver, Requestor agrees that neither Requestor nor anyone operating on behalf of Requestor will use, sell or distribute (including by downloading or any other method of transfer) the enabled Software or any other software having LZW capability either alone or in part or in combination with any other software, in the following countries; in Canada until after July 7, 2004, in Japan until after June 20, 2004 and in the United Kingdom, France, Germany and Italy until after June 18, 2004.

Requestor also agrees to promptly contact Unisys to execute an appropriate license agreement if Requestor becomes aware of violations of the above country restrictions, or if Requestor desires to use, sell or distribute the enabled Software in any of the restricted countries."

If the end user requires IDL/GIF features in any of the locations listed above he must promptly contact Unisys to execute an appropriate license agreement. The contact at Unisys is:

Nathan Cass
UNISYS CORPORATION
2049 Century Park East
Suite 310
Los Angeles, CA 90067

I acknowledge that I understand the terms and conditions of the NOAA free waiver which permits LZW-enabling of the GIF code in Research Systems, Inc. IDL software. I also understand that I can be personally held liable for any patent infringement resulting from misuse of the terms and conditions of the waiver."
